Program Chair - Uncrewed Technology

TRACI LEE

SDI President

Message from SDI President, Traci Lee

Hello and welcome to the Sonoran Desert Institute graduation ceremony! Knowing we have students all over U.S., and potentially beyond, SDI hosts ceremonies virtually to optimize the opportunity for all of our eligible graduates to participate in this event. I think I speak for all our staff and faculty when I say that seeing our students combine their passion for firearms and drones with a college level education is tremendously rewarding and demonstrates something that is unique to SDI!

We are pleased that you all have chosen to participate in this ceremony to commemorate your personal achievements and I personally welcome each of you to this virtual commencement event to honor this educational milestone! It's a major accomplishment that comes with a significant commitment of time and effort from each student and the support from family, friends, and others that may have made compromises during your studies.

Today, we are recognizing our graduates for completing the requirements associated with each program of study and any honors received as a part of this achievement! Congratulations on your educational accomplishment and our sincerest wishes for your ongoing success in the opportunities that lie ahead!

JARRED MCNEELY

Chief Academic Officer

Message from Chief Academic Officer, Jarred McNeely

Graduates, congratulations on the completion of your education, and welcome to many new opportunities. Today marks the celebration of your dedication, hard work, tenacity, and commitment. You join a group of individuals in various locations. But while this group may be spread over great geographical distances, you all embody the spirit of accomplishment that is reserved for those who seek to further their education. Remember that education is always a door opened and a world expanded. Walk through the door, and remember, no matter where you may be, an open mind is a mind always learning.

Education is also a personal experience for each of you that will lead you to new endeavors or greater things to learn. I admire each of you and look forward to what you will accomplish with your newly learned skills and knowledge. I encourage you to find your place and accomplish your goals in these growing industries.

MATT DUNLEVY

Founder, Aethero, Inc. and SkySkopes, Inc.
SDI Advisory Council

Matt Dunlevy is a leading figure in the uncrewed aircraft systems (UAS) industry, founding North Dakota's first FAA-certified commercial UAS startup in 2014 and guiding multiple ventures, including SkySkopes, Inc., to international recognition. Under his leadership, teams have executed thousands of successful UAS missions, from groundbreaking beyond-visual-line-of-sight operations with NASA to the first commercial UAS flights at military installations in North Dakota.

A three-time graduate of the University of North Dakota (BA History, MA History, and Master of Engineering), Matt also serves as an instructor and Executive in Residence at UND. He is an active member of Sonoran Desert Institute's advisory council, sharing his expertise with the next generation of innovators in business, entrepreneurship, and UAS technology.

AARON MITTAN

2025 DEAC Outstanding Graduate

Aaron is currently a Firearms Trainer and has initiated a program offering free firearms training to his community, aiming to make it more accessible. He was motivated to give back because firearms courses can be prohibitively expensive. His background includes working at a previous FFL (Federal Firearms License holder).

He also founded Force Multiplier LLC, where he focuses on combat development. Aaron believes that both gear and training contribute to how civilians can be empowered to handle day-to-day situations effectively. One of his most popular classes is 'How to Safely and Effectively Store Firearms in a Home,' which emphasizes preventive measures and early deterrence to avoid defensive scenarios. He also offers Concealed Carry classes, stressing that familiarity with firearms is key to overcoming fear and building confidence.

Aaron is currently an inactive reservist, having served in combat in Afghanistan. He joined the military in 2012 and spent two years on active duty. He decided to attend SDI using the GI Bill® after a referral from someone he worked with at a gun shop. He saw it as an opportunity to explore an unfamiliar aspect of the firearms industry, as he had previously worked in retail before changing careers.
